## 14 Nukat In Urdu

17 points in urdu, qaide azam 14 points in english Q: How can i style headings on one of my pages of my website Currently, I have a website where I've added a class called "style-default" to the body. I

have around 20 different links which I've added style-default as their class. I would like to style the headings as red, but what I want is that only the headings which have the class "style-default" should

be red, not the ones that have the class "style-default" but are actually blue, as they're not heading. I'd really appreciate any help I

can get. This is the code I've used: `.style-default { color: red; }`

Hello World! Hello World! A: Try this: `.heading { color: red; }`

`.style-default:hover { color: red; }` Hello World! Hello World!
