Microsoft Producer for Microsoft Office PowerPoint is a powerful tool that allows you to combine multimedia items when you need to create compelling presentations. This program is especially useful when you want to use materials from different sources in the same presentation. The application is designed to import multiple file types in a single library with the purpose of using them for your projects. It supports PPT and PPTX presentations and allows you to import a wide variety of image or video formats in your presentation. Multimedia items are arranged in separate categories automatically in order to easily find the resources that you need. When you create a new project you need to import the multimedia files but you can also create a project template if you want to use the same resources for more presentations. The main feature of the Producer is the timeline approach that enables you to overlap certain items for emphasizing specific moments in the presentation. You just need to add the media files to the timeline and to drag them to the desired position. When you import slides from PowerPoint presentations they retain their transition effects and make the presentation run smoothly. For the imported video files you can add a transition effect or a video effect from the ones available in the application. In order to use the presentation on another computer you need to pack the files or to publish the presentation. The program includes wizards that enable you to create these optimized versions in order to be edited or viewed on other computers. The packed version requires the program to be installed on the other computer and includes all the media files from the library. The published presentation is designed to be viewed by using an Internet browser and only includes the media files that are used in the presentation. Microsoft Producer allows you to create and publish presentations by using a professional environment. It is easy to use and includes a detailed documentation that intends to help you create presentations with minimum effort.
